

TUESDAY, AUGUST 14, 1894.

A PICTURE OF PULLMAN.

The "model town" of Pullman is just now, in consequence of the recent strike, the subject of much discussion in the pulpit and in the press. Rev. George D. McCulloch, a Presbyterian minister of St. Louis, said in describing the transformation of the swampy prairie into the "model town": "It is an instance of what municipal socialism can do in securing beauty, comfort, and profit most economically. The benefit of this success, however, goes not to the people of the city, but to one owner of it all. Such power, said he, is a mistake in our free government and will always lead to friction and strife. The great enterprise was not a benevolent work; it was to make money. Its success from the money standpoint develops certain irritating conditions that ought to be considered."

"(1) These laboring people believe that the only interest the management have in them is to make money out of them. There is surely some reason for it when we are told that the Pullmanites pay \$2.15 per 1,000 feet for gas which costs the company only 33 cents. Again, while the company gets water for 4 cents per 1,000 gallons from the city of Chicago, it sell this water to the people for 10 cents, thereby making enough profit to get all the water needed for those great manufacturers free of expense, the people paying the entire cost.

"(2) Let us consider again that these laborers believe they are unjustly treated; that the laws administered now discriminate in favor of the rich man. Is there not some ground for the feeling? Stead's book on Chicago gives some data from the tax lists of the city. According to this authority, in 1883, George M. Pullman paid taxes on ten horses valued at \$21 a head; on six carriages valued at \$31 a piece. His whole assessment on real and personal property was less than \$30,000. According to the almost fabulous wealth of Mr. Pullman, who does not consider this a mere travesty of justice? The poor man's cottage pays a rate of taxation four times greater than the palatial buildings of the millionaires."

The New York *World* states that the Directors of the Pullman Company two weeks ago declared a quarterly dividend of 2 per cent upon \$36,000,000, nearly 75 per cent of which is water. This dividend equals about 32 per cent on actual investments, yet in the face of such facts the plutocrat declares the company is losing money and in consequence reduced wages and precipitated the great strike.

Pullman's wealth outside of the company is fabulous. He is reported to be in the millions a millionaire, but he pays taxes on less than \$50,000 and many are opposed to an act of Congress taxing his income 2 per cent per annum.

THE GRAND JURY REPORT.

The report of the Grand Jury submitted last evening is printed in another column. It paints the county jail in very dirty colors, and recommends that a new one be built at a cost not exceeding \$10,000, and urges that the Commissioners take immediate steps for its erection. The jury after a careful investigation finds that the United States troops sent here were ordered by the President to take possession of the railroad right of way to carry out the provisions of the interstate commerce act and transmit the mails, and that the acts of Colonel Poland and his troops were in accordance with military law and usage.

As proof that Colonel Poland and his troops, though ordered by the President to take possession of the railroad right of way to carry out the provisions of the Interstate Commerce Act, did not do so, the Jury finds that freight charges are higher from St. Louis, Mo., and Waukegan, Ill., to Reno than to Sacramento, which is 155 miles farther from the shipping points. Perhaps the troops were not ordered to enforce that clause of the Interstate Commerce Act, which relates to long and short hauls over the same line in the same direction, and as the Interstate Commerce Commission will not do it the Jury calls on Congress for assistance.

Regarding the quality of the water supplied the town the Jury submits an analysis made by Professor N. E. Wilson of the State University and recommends that the Board of Health, whose duty it is to attend to such matters, take immediate steps to have the reservoirs and ditches cleaned.

NOT A CAMPAIGN ISSUE.

The goldbug leaders and papers of Nevada are endeavoring to make C. O. Wallace an issue of the campaign. They know him as a bright, intelligent shrewd politician and many of them who are indited to him for favors and preferment are among his most virulent assailants. They cannot forgive him for leaving the Republican party as thousands of others did when they had incontrovertible proof that it was opposed to the free coinage of silver. Why should Mr. Wallace be made an issue of the campaign? Did he ever have the State militia or United States troops called out to nominate a candidate in a State Convention or pass a bill through the Legislature? How is it that Republicans never discovered that Mr. Wallace runs conventions and Legislatures until he left their party? Considering that he had more influence in the Silver party convention than all

the delegates, as charged by the goldbugs, what did that convention do that the people of the State did not approve? That convention endorsed Weaver for President, so did the People's party convention of Washoe county, and so did an overwhelming majority of the voters of the State. Admitting that he favored Senator Stewart for re-election, did not nearly the whole people of the State do likewise? If Mr. Newlands was his choice for Representative in Congress 70 per cent of the voters approved his choice at the ballot box. The People's party of Washoe county demanded the repeal of the State Board of Assessors' Act. The goldbugs said Mr. Wallace was opposed to the repeal of that act, yet the Legislature wiped it from the statutes. The People's party of Washoe county pledged its legislative candidates to oppose any legislation adverse to the Air Line Railroad. The goldbugs said Mr. Wallace was opposed to that road, but the Legislature nevertheless granted all that the Air Line Company asked for, which was an extension of time.

Mr. Wallace is an old resident of Nevada and an American citizen. As such he is supposed to have the undisputed right to express his political opinions and affiliate with the party that comes nearest advocating his political views. He is not, so far as stated, a candidate for any office, and why the goldbugs should attempt to make him a political issue can only be surmised.

A THREE MILLION DOLLAR SUIT.

The Decision Rendered by Judge Hinley in a Big Mining Suit.

SAN FRANCISCO, August 13.—A decision in a mining suit involving millions of dollars was rendered in the United States Circuit Court to-day. The case is that of the Consolidated Wyoming Gold and Silver Mining Company against the Champion Gold Mining Company. Judge Beatty delivered the decision though it was rendered by Judge Hawley of Nevada. The action was brought for an injunction and accounting of a very valuable mining property which has been in litigation in the State and Federal Courts of Nevada for many years. Complainant and respondent own adjoining mining locations. There was no dispute as to the boundary lines of locations but the contest was as to the continuation of a certain vein or lode. The Wyoming Company claimed its adversary was working its lode, that is the one whose apex was within its boundary lines.

It is claimed that the two veins run from the northerly and southerly ends of its locations, converging until they united, forming one lode which slanted off below the surface of the ground of the Champion. The latter claimed that it was working a disconnected middle vein and therefore it had no connection with the Wyoming ore body.

In the opinion of the Court the two veins cropping out on the surface joined as one vein below. The evidence pointed to that circumstance and it was presumably a fact. The line of the lode after uniting was irregular. The United States law provides that where two veins unite as one the prior locator shall be entitled to the consolidation vein.

The first location of the Wyoming company was in 1872 in the form of a parallelogram 1,500 feet long and 600 feet wide. This location has been worked for the past 40 years and during all this time the true source or direction of the vein remained doubtful.

The statute gives a locator all he is entitled to and no more, and he is entitled to the result of his labor and expenditure. A locator can follow the vein having its apex within his own lines upon proof that it is his lead.

The complainant set up that where a patent gives the right to a lode it cannot be attacked by any collateral claim to a continuation of the lode of other mining claimants. The respondents did not attack the patent of the complainants. The Land Office did not determine the course of the lode in issuing the patent. The respondent had a right to show that the ore found was not part of the vein claimed by complainant, but it had failed to do so. An injunction and accounting is ordered as prayed for.

It is estimated that the amount involved in the suit is some \$3,000,000 or more, and the Champion company had already paid some \$2,000,000 out in dividends, which largely came from the disputed ore.

THE TARIFF BILL PASSED.

Also Bills for Free Sugar, Iron Ore and Coal.

WASHINGTON, August 13.—At 6:30 p. m. the House passed the Senate Tariff bill by a vote of 182 to 125, eleven Democrats voting against the bill.

Separate bills providing for free iron ore, coal, sugar and barbed wire were then introduced and passed, after which the House adjourned until Wednesday.

CRISP'S RESOLUTION.

It is Passed by a Large Majority.

WASHINGTON, August 13.—At the Democratic caucus to-day Senator Crisp introduced a resolution to the effect that the House agree to the Senate amendment to the Wilson bill, and that the House shall at once proceed to the consideration of separate bills placing sugar in all its forms, iron ore, coal and barbed wire on the free list. This resolution was adopted by an overwhelming vote.

Corbett and Jackson Went Right.

NEW YORK, August 13.—Negotiations for a fight between Jackson and Corbett have been declared off.

WHAT WILSON SAYS.

WASHINGTON, August 13.—Chairman Wilson after the caucus stated that the House had done its best but had to contend against a Senate which is not Democratic. The impatience of members to get back to their districts with anything that might be called a tariff reduction bill made them unwilling to stay unless a promise could be given of victory. "We could not honestly give such a promise, and a man cannot continue to battle with his army ready and eager to break away." The bill gives free wool, lumber, hemp, flax and jute.

GRAND JURY REPORT.

GRAND JURY ROOM, Aug. 13, 1894.

To the Hon. A. E. Cheney, Judge of the District Court in and for the County of Washoe, State of Nevada:

We, your Grand Jury, beg to make the following additional report, to-wit: We find true bills against Henry Packard and — for the crime of

We have examined the county jail and find it in such a filthy condition that we strongly recommend the immediate and complete renovation of the same. To that end we suggest 1st—That there be at once a thorough cleaning and disinfection of the premises of the jail, as the woodwork is so thoroughly infested with noxious vermin and filth that it endangers the health and well-being of all who come in contact with it.

The Grand Jury further finds that the present jail is inadequate in size and unsafe in construction for jail purposes of the county. Under present conditions, there are no means of separating prisoners, or of separating small boys who are sometimes under arrest, from the most hardened criminals; nor is there any provision for confining female prisoners.

The present jail, in all its aspects, is a disgrace to Washoe county. Former Grand Juries have recommended the building of a jail, and we most earnestly renew the recommendation, and urge that the County Commissioners at once make arrangements for the erection of a first-class, commodious, graded jail, at a cost not to exceed about \$10,000, and the space now occupied for jail purposes can be utilized by the county for much-needed office and storage rooms.

We have patiently and carefully investigated the various complaints arising out of the late railroad strike, and from the testimony taken, we find the U. S. army was ordered by the President of the United States to take possession of the right of way of certain railroads and run the trains so that the provisions of the Interstate Commerce act might be carried out and the mails transmitted. We find that the portion of the Central Pacific railroad in Washoe county was included in the aforesaid order, and that the acts of Col. Poland and his troops were in all particulars in accordance with military law and usage, and in no way intended to menace or interfere with the civil affairs of the county, and that all military exactions were confined to the railroad right of way and deemed necessary by military law to prevent trespass upon or interference with railroad property.

3—The wooden box which conveys the water from the ditch to the reservoirs is partly underground, and where so placed there is much unclean surface water which, in the opinion of the committee, seeps into the box and so into the water used for domestic purposes in the town; and the ditch carrying the water to this box is lined with weeds, many of which are growing in it, while at places along it cattle, horses and sheep have free access to it, often standing and drinking therein, and thus contributing filth to the water, as appeared from the evidence before the Grand Jury.

Such conditions ought not to exist. They are, in the judgment of your committee, the causes that make Reno's water supply a menace to the health of the community, as the physicians before the Grand Jury as witnesses testified that it is—the causes that make it, as the chemist before the Jury testified, "absolutely unfit to drink."

We were directed to suggest a remedy for the evil of impure water, or to make such recommendations as we might deem essential in the premises. We, therefore, recommend that the Board of Health, whose duty it is to attend to such matters, be urgently requested to take immediate steps to have reservoirs, ditches, etc., cleaned, proper straining secured and an effective filter put in if necessary, to the end that the water supplied to the people of Reno may be reasonably pure and no longer "a menace to the health of said people." These recommendations are directly in line with the views of all authorities on water supply.

If the Board of Health have not the necessary power now to enforce these reforms, the County Commissioners should give them such power without delay.

Your committee find that the amount of water supplied is, for at least half of the Spring, Summer and Autumn, insufficient.

We append Professor Wilson's analysis of the water here as a part of our report. [Prof. Wilson's report is quite lengthy and is omitted from this issue, but will be published later.—Ed.]

FOR SALE BY WM. PINNIGER.

pended in this State, thereby allowing the said railroad company to charge the people of this State for service never performed. We, therefore, call the attention of our Senators and Member of Congress to this unjust exactation on the part of said railroad company, and request them to use their best endeavors to require the Interstate Commission to have the fourth section of said act put in operation in Washoe county, State of Nevada. The items herein specified are only a few of the many that have been presented to us for investigation.

The special committee appointed to examine into the condition of the water supplied to the people of Reno, and the condition of the immediate sources of such supply, to-wit: the reservoirs of the water company and the ditches leading to the same, beg to report as follows:

1—The reservoir from which the water is piped to town is full of weeds and is otherwise in an unclean condition. The straining of the water in this reservoir is defective and there is no attempt made here or elsewhere to filter the water.

2—The water is not properly strained before reaching the Settler reservoir, from which the water passes into the first named reservoir, and this reservoir is not in a cleanly condition.

3—The wooden box which conveys the water from the ditch to the reservoirs is partly underground, and where so placed there is much unclean surface water which, in the opinion of the committee, seeps into the box and so into the water used for domestic purposes in the town; and the ditch carrying the water to this box is lined with weeds, many of which are growing in it, while at places along it cattle, horses and sheep have free access to it, often standing and drinking therein, and thus contributing filth to the water, as appeared from the evidence before the Grand Jury.

Such conditions ought not to exist. They are, in the judgment of your committee, the causes that make Reno's water supply a menace to the health of the community, as the physicians before the Grand Jury as witnesses testified that it is—the causes that make it, as the chemist before the Jury testified, "absolutely unfit to drink."

We were directed to suggest a remedy for the evil of impure water, or to make such recommendations as we might deem essential in the premises. We, therefore, recommend that the Board of Health, whose duty it is to attend to such matters, be urgently requested to take immediate steps to have reservoirs, ditches, etc., cleaned, proper straining secured and an effective filter put in if necessary, to the end that the water supplied to the people of Reno may be reasonably pure and no longer "a menace to the health of said people." These recommendations are directly in line with the views of all authorities on water supply.

If the Board of Health have not the necessary power now to enforce these reforms, the County Commissioners should give them such power without delay.

Your committee find that the amount of water supplied is, for at least half of the Spring, Summer and Autumn, insufficient.

BREVITIES.

J. O. Gregory of Wadsworth was in town yesterday.

Garden hose, lawn mowers, paints and oils at lowest prices at Lange & Schmidt's.

To invigorate the system after illness, Ayer's Sarsaparilla is highly recommended.

In Justice Lin's Court yesterday John Pizzetti was tried for assaulting Pete Dalton and was discharged.

The ladies of the Congregational Church will serve a New England dinner and ice cream next Thursday.

Sensible—An old sea captain writes to J. C. Ayer & Co. that he never goes to sea without a supply of Ayer's Pills.

The largest assortment of heating stoves, parlor stoves, cook stoves and ranges, crockery and lamps at panic prices at Lange & Schmidt's.

The School Board of District No. 18, Spanish Springs Valley, elected Miss Katie G. Moore of Virginia teacher for the ensuing term.

When the hair has fallen out, leaving the head bald, if the scalp is not shiny, there is a chance of regaining the hair by using Hall's Hair Renewer.

H. J. Thyss received a car-load of Lem's bottled beer yesterday and is prepared to supply the trade and families with the best beer manufactured.

Dr. Hutchinson and wife caught eleven trout yesterday. One of them made a dinner for six persons and measured thirteen inches in circumference just back of the head.

SHIP BUILDING IN 1893.

The statistics of the Bureau of Navigation show that during the fiscal year ending June 30, 1894, there were built and officially numbered in the United States 538 wooden sailing vessels, aggregating 37,719 tons, and 393 wooden steam vessels of 44,153 tons. During the same period there were built three iron or steel sailing vessels, aggregating 4,750 tons and 45 iron or steel steam vessels, aggregating 47,76 tons. The sailing vessels, wooden and iron, aggregate 511 in number and 42,480 tons in measurement, and the steam vessels, iron and wooden, aggregate 353 in number and measured 51,931 tons. The total number of vessels built was 834, with a measurement of 131,394 tons.

She Who Would Be Queen—The queen of beauty must look to her teeth, for a pretty mouth is indispensable to female loveliness. Brush your teeth carefully with fragrant Sodzout and you will be charmed with the result, for it is without equal as a dentifrice.

Cocaine Cream—Is the latest and best of all toilet creams to render the skin soft, white and beautiful without injury to it. It is excellent for sunburn and to remove tan and freckles and other blemishes. Every lady should have a bottle and it may be had of William Pinney.

MR. WALLACE TALKS BACK.

Very Interesting Facts—Political Integrates—The Sack in Politics.

The *Eureka Sentinel* of last Saturday contains the following:

EUREKA, Nev., Aug. 7, 1894.

To the Editor of the *Eureka Sentinel*. Two years ago over seven thousand citizens of Nevada, Republicans and Democrats, convinced that the national platforms of both Republican and Democratic parties were insincere and simply framed to catch the votes of the silver voters of the South and West and the goldbug voters of the North and East, and that both of the old parties were controlled by Wall street and the national banks upon the silver question, with a spontaneity seldom witnessed in political matters resolved thereafter to act independently of previous political affiliations, and for the best interests of Nevada.

In pursuance of this resolution they organized the Silver party. The party embraced men of all occupations, and in some counties the voters were practically unanimous in favor of the Silver party movement. Only those who remained with the old parties who were office holders or expected office from the incoming administration and those who were in a great measure dependent upon corporations or office holders or others to such an extent that they dare not express their real sentiments except, perhaps, fifteen hundred really independent, honest, reputable citizens who remained with the old parties from conviction.

To the extent of my ability I aided the Silver party. The corrupt elements in both of the old parties considered this a high crime, and forthwith Tracy, Blanche and Sweetheart, and the innumerable pack of curs of both the old political parties, opened on my track; fellows who had fawned upon me, getting down in the dust and licking my boots for favors, prompted by the biggest dogs, commenced abusing me personally as only such curs can abuse one.

The Reno *Gazette* has been particularly active in this kind of dirty work. The Silver party, composed as it is of an independent, intelligent, honest and able body of men as can be found anywhere in any State of the Union, is insulted by that paper by such phrases appearing in its columns as "Wallace's Silver party. (Some sentences of a purely personal character are omitted.)

A few days since the *Gazette* published a letter, dated at Carson, but in fact, I have no doubt, written at Reno by a writer who recently distinguished himself by maintaining with great earnestness that the price of silver was never influenced by legislation. The slimy course of this fellow since he has resided in Nevada has made him a stench in the nostrils of the people of this State. When he wrote that letter he lied and he knew he lied; he lied with malice aforethought. So far as his personal allusions to me are concerned, I shall not notice them, but his miserable slanders upon the State Central Committee of the Silver party, and upon Judge Cheney, deserve to be stamped, as they are, miserable, contemptible lies. The availability of candidates was not discussed at the recent meeting of the State Central Committee of the Silver party of Nevada. It is not true that I have selected Judge Cheney or any other man for office in Washoe county, or that I have in any way meddled with the local politics of Washoe county. I understand the independent character of the members of the Silver party of Washoe county too well to attempt anything of the kind. If I were still a member of the Republican party I should know exactly how to reach the *Gazette* and its correspondent. The letter is simply a weak and silly invention of a mischievous fool for the purpose of arousing jealousy and creating dissension in the ranks of the Silver party, and will deceive no one of ordinary common sense.

Now, Mr. Editor, I have been a resident of Nevada for thirty-four years. During that time I have always been engaged in some honest and useful occupation. I was elected tax collector of Lander county in 1883, and have been assessor of Eureka county consecutively for about twenty years. In 1883 I resigned, not because the county commissioners "turned me down," for they could neither increase nor diminish my salary, but I quit because I found more lucrative employment. During all my incumbency of office I challenge any man to point to a single stain on my official record.

The *Gazette* scribbler has much to say about the "sack." I have yet to learn that any party in this State has ever failed to use money at elections when they could get it. Has the "sack" any potency with the *Gazette*? At the last general election, that detectable sheet professed to favor silver, but opposed the only party that was in favor of silver; professing to be Republican, it supported the candidate of the Silver party, who is a millionaire, for Congress, and opposed the Republican candidate, who is a poor man; was there a "sack" in the background? The *Gazette* also supported Wm. M. Stewart, who is a rich man, for United States Senator, although he was the candidate of the Silver party, and opposed Bartine, the Republican candidate, who is a poor man; did the "sack" exert an influence in that case? Did the *Gazette* ever advocate any party or any candidate of any party without a "sack" in view? I opine that the virulent personal abuse of myself through the columns of the *Gazette* is paid for, directly or indirectly. All persons who know the antecedents of the *Gazette* will readily divine "the power behind the throne."

Camping Parties.
M. J. Kiley and family, Mrs. M. A. Higgins and family, A. Tillman and Frank Kietzke left yesterday for Grizzly valley. Will Gould and wife, R. W. Parry and family, G. W. Crosby and wife and Miss Ione Gould left for Webber lake, and Mr. Maynard and the Waltz boys left for Galena creek and Mount Rose.

Bucklin's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever, sore teeth, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25cts per box. For sale by S. J. Hodgkinson.

Alumni Meeting.

There will be a meeting of the Normal Alumni at the residence of Wm. Webster, Sr., Wednesday, August 15th, at 2 p.m.

By order of the President.

PRIMARY ELECTIONS.

Names of Delegates Suggested.

Primaries will be held to-morrow in the several precincts in the county to elect delegates to represent Washoe county in the State convention to be held at Carson City September 4th. This county is entitled to 22 delegates, and Reno's proportion is thirteen. Polls will be opened at the engine house from 1 to 6 p.m. The judges appointed by the County Central Committee are D. W. O'Connor and James Phillips, Judges, and Geo. H. Buckland and O. H. Perry clerks. At a meeting of the County Central Committee held last evening the following named persons were suggested by the committee as delegates to be voted for at the primary. It will, of course, be understood by the voters as a suggestion only, and binding upon no one:

R. Ryland, B. F. Leete, H. H. Beck, R. C. Moore, T. V. Julien, C. C. Powning, E. D. Kelly, John Sunderland, H. Bergstein, W. P. McLaughlin, G. H. Holesworth, I. B. Marshall, R. C. Leeper.

Improvements at the University.

Richard Brown, the mechanical instructor at the University, does not allow time to drag with him during the vacation. He, with the assistance of some of his pupils has planned and completed a splendid

FIRE PROOF VAULT

In the basement of one of the larger buildings. The vault is built of good brick, the wall being 13 inches thick, then an air chamber of four inches all around, and the inside lined with heavy steel. The floor is iron and the top or roof is well protected. A heavy door with combination and time lock secures the entrance. It is fitted up inside with pigeon holes, shelves and drawers conveniently arranged in size and shape, to receive books, bills, vouchers, reports and blanks of all kinds. All of the records of the University can be safely stored without danger of fire or burglary, and it is an improvement that is very necessary. He has also just completed a

FIRE ALARM SYSTEM

Consisting of magneto-bell boxes one of which is placed in each building. These are connected with the engine house on Commercial Row by wire and in case of fire at the University an alarm can be turned in that starts a large gong ringing at the fire house, that will continue its clangor until some one stops it. A large hydrant has been placed at a central point in the rear of the University buildings. The pressure of the water is about 40 pounds to the square inch. This is preferable to a cistern, as the engine can couple on, and instead of wasting power through suction the water is forced into the chamber under pressure, and all the power can be utilized in throwing the three or four streams that can be used if necessary. The whole arrangement is complete and the cost comparatively trifling. Had a fire ever occurred at the University it could have reached great headway before a person could have come to town and given an alarm and the necessary delay of getting the fire apparatus on the ground. As it is now the alarm can be given at the engine house immediately upon the discovery of a fire, and when the steamers arrive there everything is ready to begin work.

Foreign.

Following is the list of advertised letters remaining uncalled for in the Reno, Nevada, Postoffice for the week ending August 13, 1894:

Burkhardt, Charles Madigan, Mary G. C. Lizzie, G. H. Curti, G. Monano, L. Cook, John-2 Manil Frank R. Chambers, George Mugo, Domenik Clark, Sandy Corden, Jacob-2 Roblin, A. J. Doll, Mrs. U. J. Robius, B. Edwards, Wm. Rivers, Wm. Fowler, T. Ramsey, Mrs. W. S. 2 Henn, John Serano, Louis Hill, Fred Sapp, Geo. Hill, Fred D. E. Viterino, Manuel Jaiman, Mrs. M. W. Macklin, Ed. Webster, A. J. Mackenzie, K.

FOREIGN.

Arvedo, J. S. Boden, Fortado Amaral A. F. Figueiro, Jose H. J. Berry, P. M. Deserving Praise.

We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. S. J. Hodgkinson, druggist.

The Tahoe Road.

T. K. Hymers received word that the new Tahoe road via Galena creek and Mount Rose is in good condition. This is a pleasant mountain drive to Lake Tahoe, and the camping grounds at Incline and vicinity are fine. The ride to the lake can be made in a few hours and the scenery is worth one's while to take the trip, to say nothing of the dense pine forests, rushing mountain torrents, spiders and ants crawling down your back and getting pitch in your hair.

District Court.

In the District Court yesterday the will of W. L. Needham was admitted to probate. Mary H. Needham was appointed executrix without bonds. The case of Geo. F. Bliss vs. the Bank of Nevada was set for Saturday, the 18th inst.

The case of Wm. Webster, ex rel. vs. H. B. Rule was argued before the Court and submitted, and the case taken under advisement.

Camping Parties.

M. J. Kiley and family, Mrs. M. A. Higgins and family, A. Tillman and Frank Kietzke left yesterday for Grizzly valley. Will Gould and wife, R. W. Parry and family, G. W. Crosby and wife and Miss Ione Gould left for Webber lake, and Mr. Maynard and the Waltz boys left for Galena creek and Mount Rose.

Bucklin's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever, sore teeth, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25cts per box. For sale by S. J. Hodgkinson.

Alumni Meeting.

There will be a meeting of the Normal Alumni at the residence of Wm. Webster, Sr., Wednesday, August 15th, at 2 p.m.

By order of the President.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds. If you have never used this Great Cough Medicine one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chests and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at S. J. Hodgkinson's drug store. Large bottles 50c and \$1.
